

Cherokee County School District

Welcome CCSD Parents:

Canvas is a Learning Management System coming Fall of 2017 for all students in the Cherokee County School District. Currently your child(ren's) teacher is participating in the pilot. A learning management system, (LMS), is a software-based platform that provides an engaging framework and interactive tools to facilitate blended and personalized learning both inside and outside the classroom.

Canvas bundles assignments, course content, assessments, grading, state standards, messaging, learning data, and more—while keeping everything simple, easy, and in one place. Canvas was chosen as Cherokee's Learning Management System for its wide range of easy to use tools for students, teachers, and parents. Canvas will allow our students and teachers to focus on rigorous academic standards and personalized instruction that drive the design of engaging and relevant learning experiences and result in evidence and feedback to inform each student's growth and teacher practice.
