

Assignment of Architects

Architects will be used for renovation/modification and construction projects as required by State and local regulations. All architects are recommended by the Superintendent for submission to and approval by the Board of Education.

The architect shall advise the administration on the phases of the program for which they have technical training and experience.

The architect performs other functions as follows:

1. Translates the educational program for which the facilities are needed into building design and specifications.
2. Advises the Superintendent on letting of contracts.
3. Supervises or directs construction.
4. Advises the Superintendent as to costs on additions.
5. Recommends approval and acceptance of completed facilities.

All architects employed by the Cherokee County Board of Education must carry a minimum of \$2,000,000 of errors and omission insurance.

ADOPTED: August 2, 2001

Cherokee County Board of Education
