

BOARD POLICY
Drug Education

Descriptor Code: IDBB

The Board has adopted an age-appropriate, developmentally based drug and alcohol education and intervention program for students K-12. Information which addresses the legal, social and health consequences of drug and alcohol use and which provides information about effective techniques for resisting peer pressure to use illicit drugs or alcohol is to be taught in this program.

To ensure that every student receives drug education every year, drug education units will be taught in designated subject areas in addition to health and science programs.

Materials about drug and alcohol counseling and rehabilitation and re-entry programs are to be made available to students through the counseling office, required drug education classes and any other appropriate location.

The Board will review the program biennially to determine the program's effectiveness and implement changes as they are needed.
